Education

Champlain Valley Union High School

August 2020-Present

- High School Diploma

Center for Technology, Essex

August 2022-Present

Computer Animation & Web Design Program

Inside the Computer Animation & Web Design Program, I worked on refining my skills as a traditional and digital artists through a multitude of mediums. I learned skills in video and photo editing, as well as the principles of videography and photography. I studied computer animation and the principles of animation, and learned how to create 3D models. I discovered how to use game engines such as Unreal Engine and Unity. Lastly, I learned how to build a fully-functional and optimized website from the ground up.

- Adobe Creative Suite
- 3d Modeling with Blender
- Animation Fundamentals
- Traditional Art & Fundamentals
- Web Design and Programming
- Game Design through Unity and Unreal engine
- Storyboarding and Creative Writing
